

UNIQUE PROVIDER FOR TMO/HIA AND  
AUDIO TECHNOLOGIES SOLUTIONS

VOGO implements VOKKERO audio systems and VOGOSPORT video replay solutions to equip pitch referees, TMO & medical teams.

## VOGOSPORT

Ergonomic and intuitive video live & replay solution for refereeing & medical teams

## VOKKERO

World leader in audio communication systems for referees and medical teams

### TMO SOLUTION

VOGO sets up a fully equipped TMO station in a dedicated room or in the media tribune. Through VOGOSPORT video replay solution, the TMO has access to all camera footages and can review the actions for video refereeing.

Through VOKKERO ELITE system, he communicates with the main referee on the pitch.

VOGO can broadcast TMO footage on the stadium screen or set up a dedicated tablet on pitch-side for the main referee to review them.

### HIA SOLUTION

VOGO provides a VOGOSPORT tablet to the match doctor on pitch-side, to access all camera footages and help assess head injuries. In addition, VOGO sets up a touchscreen in the HIA room to be used for HIA 1 and 2.

The doctor can tag relevant actions, then tags are shared between both screens.

In case of match and video doctors, they can communicate through VOKKERO STAFF audio com system.

## AUDIO TECHNOLOGIES SOLUTIONS

The VOKKERO ELITE radiocommunication system designed for professional refereeing is recognized for its excellence by the sport's leading players.

The full-duplex intercom combines high-quality with great simplicity. Intuitive and ergonomic, it's easy to deploy and use. Its noise filter can be configured according to the atmosphere in the stadium, enabling clear refereeing even in very noisy football or rugby matches.

## VOGO, YOUR PREFERRED PARTNER FOR HIA & TMO SOLUTIONS

Video decision support tool for concussion protocol (HIA)

Dedicated cloud to store all video feeds for medical follow-up

Over 3000 matches covered with our HIA solution

Ongoing research to integrate AI dimension and facilitates concussion diagnosis

User-friendly, intuitive features dedicated to medical staff and TMO

Integrated, turn-key video & audio TMO solutions, based on proprietary patented technologies

Cost-effective solutions
